

Contingency Compliance Audit

Helping customers recover duty,
identify errors & manage
compliance risk

Contingency Compliance Audit

KM Supply Chain will provide a proactive assessment of import transactions to identify potential areas for recovery of duties and / or mitigate risk of penalties. Key Deliverables:

- Investigate shipments where duty was paid for the past 3-year period
- Provide report on potential duty recovery, steps to recover and costs associated
- Highlight any areas of risk with CBSA and or US CBP regulations

KM Supply Chain will provide this audit on a contingency basis. There will be no upfront charges. Should actions be taken to as a cause of the audit, a full proposal base on input hours and activity required can be provided.
